

ASRA ZIA

AI Software Engineer Intern Candidate | AI & Data Science Student

Wah Cantt, Punjab, Pakistan | 03190523557 | asrazia68@gmail.com | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

AI & Data Science student with hands-on experience building and deploying AI-enabled software products — RAG systems, multi-agent automation pipelines, computer vision models, and Streamlit-based applications. Seeking the AI Software Engineering Intern role to contribute to intelligent dashboards, data platforms, and production-grade AI automation for real business use cases.

TECHNICAL SKILLS

- Languages: Python, C++
- AI / ML: Machine Learning, Deep Learning, Computer Vision, NLP, RAG Systems, Multi-Agent Systems, LLM APIs (Groq, LLaMA 3.3)
- Frameworks & Tools: TensorFlow/Keras, Scikit-learn, LangChain, LangGraph, HuggingFace, ChromaDB, Streamlit, Pandas, NumPy, OpenCV, Git/GitHub
- Software Engineering: REST/API integration, version control workflows, deployment on Streamlit Cloud, basic app architecture for AI-enabled products

RELEVANT EXPERIENCE

Machine Learning Engineering Intern — FlyRank *(Remote)*

July 2026 – Present (6-week cohort)

- Contributing to ML engineering workflows as part of a structured, cohort-based internship program.

Data Science & ML Intern — Infyntrek Systèmes *(Remote)*

2026 – September 2026

- Supporting data science and machine learning tasks including data analysis, model development, and applied ML experimentation.

PROJECTS

LeadHunter — AI Lead Generation Tool | *Python, Streamlit*

- Built and deployed a Streamlit-based lead generation web app, live in production and used as a freelance portfolio demo.

DocuQuery AI — RAG Document Q&A System | *LangChain, ChromaDB, Groq LLaMA 3.3, HuggingFace*

- Built a Retrieval-Augmented Generation system enabling context-aware Q&A over custom documents using vector search and LLMs; deployed on Streamlit Cloud.

AI Social Media Agent | *LangGraph, LangChain, Groq API, Streamlit*

- Developed a multi-agent automation framework that analyzes social media content and generates intelligent responses, packaged as a Fiverr-ready service.

Real-Time Weapon Detection System | *YOLOv8, OpenCV, Computer Vision*

- Designed and trained a real-time object detection model for weapon identification in video streams to support public safety use cases.

EDUCATION

BS Artificial Intelligence & Data Science — FUUAST, islamabad Campus

2025 – Present | 2nd Semester | CGPA: 3.17

LANGUAGES & SOFT SKILLS

- Languages: Urdu (Native), English (Professional)
- Soft Skills: Problem Solving, Team Collaboration, Quick Learner, Attention to Detail
